

The 5 roles of the VU Students as Partners Framework

Inform

To inform students in order to understand the situation, challenge and possibilities of the offered education.

Consult

To consult student feedback on specific topics related to the offered education.

Empowering student-teacher partnership

in the innovation of education.

Involve

To involve students in the process of changing education, in order to integrate their ideas in education.

Control

Students design and lead innovations related to their perspectives and control and decide in the process.

Partner

To partner with students in each phase of the process, from analysis to implementation.
