DEFINITIONS

Reference these definitions to guide you in pulling Financials and Operations (formerly Cost & Revenue and Practice Operations), P&L or Income Statement report fields.

Gross fee-for-service charges (does not include capitation charges) [4100-4130]¹

The full value, at the practice's undiscounted rates, of all services provided to fee-for-service, discounted fee-for-service, and noncapitated patients for all payers.

Included:

- Professional services provided by physicians, advanced practice providers, and other physician extenders such as nurses and medical assistants;
- Both the professional and technical components (TC) of laboratory, radiology, medical diagnostic, and surgical procedures;
- Drug charges, including vaccinations, allergy injections, immunizations, and chemotherapy and anti-nausea drugs;
- Charges for supplies consumed during a patient encounter inside the practice's facilities. Charges for supplies sold to patients for consumption outside the practice's facilities are reported as a subset of "Revenue from the sale of medical goods and services";
- Facility fees. Examples of facility fees include fees for the operation of an ambulatory surgery unit or fees for the operation of a medical practice owned by a hospital where split billing for professional and facility services is utilized;
- Charges for fee-for-service services allowed under the terms of capitation contracts;
- Charges for professional services provided on a case-rate reimbursement basis; and
- Charges for purchased services for fee-for-service patients. Purchased services for fee-for-service patients are defined as services that are purchased by the practice from external providers and facilities on behalf of the practice's fee-for-service patients.

For purchased services, note the following:

- The revenue for such services is included in "Total net fee-for-service collections/revenue";
- The cost for such services is included, as appropriate, in "Clinical laboratory," "Radiology and imaging" or "Other ancillary services"; and
- The count of the number of purchased procedures for fee-for-service patients are included in Total Procedures.

Not included:

- Charges for services provided to capitation patients. Such charges are included in "Gross charges for patients covered by capitation contracts";
- Charges for pharmaceuticals, medical supplies and equipment sold to patients primarily for use outside the practice. Examples include prescription drugs, hearing aids, optical goods, orthopedic supplies, etc. The revenue generated by such charges is included in "Revenue from the sale of medical goods and services"; or
- Charges for any other activities that generate the revenue reported in "Revenue from the sale of medical goods and services."

Adjustments to fee-for-service charges (value of services performed for which payment is not expected) [4200-4240, 4500-4600]¹¹

The difference between “Gross fee-for-service charges” and the amount expected to be paid by or back to patients or third-party payers. This represents the value of services performed for which payment is not expected.

Included:

- Medicare/Medicaid charge restrictions (the difference between the practice’s full, undiscounted charge and the Medicare limiting charge);
- Third-party payer contractual adjustments (commercial insurance and/or managed care organization);
- Charitable, professional courtesy or employee adjustments;
- The difference between a gross charge and the Federally Qualified Health Center (FQHC) payment. This could be a positive or negative adjustment; and
- Refunds for overpayments, duplicate payments or for amounts which should not have been collected.

Bad debts due to fee-for-service activity (accounts assigned to collection agencies) [6900-6920]¹¹

The difference between “Adjusted fee-for-service charges” and the amount actually collected.

Included:

- Losses on settlements for less than the billed amount;
- Accounts written off as not collectible;
- Accounts assigned to collection agencies; and
- In the case of accrual accounting, the provision for bad debts.

Gross charges for patients covered by capitation contracts [4170]¹¹

Also known as fee-for-service equivalent gross charges. The full value, at a practice’s undiscounted rates, of all covered services provided to patients covered by all capitation contracts, regardless of payer.

Included:

Fee-for-service equivalent gross charges for all services covered under the terms of the practice’s capitation contracts, such as:

- Professional services provided by physicians, advanced practice providers, and other physician extenders such as nurses and medical assistants;
- Both the professional and technical components (TC) of laboratory, radiology, medical diagnostic, and surgical procedures;
- Drug charges, including vaccinations, allergy injections, immunizations, and chemotherapy and anti-nausea drugs;
- Charges for supplies consumed during a patient encounter inside the practice’s facilities. Charges for supplies sold to patients for consumption outside the practice’s facilities are reported as a subset of “Revenue from the sale of medical goods and services”; and
- Facility fees. Examples of facility fees include fees for the operation of an ambulatory surgery unit or fees for the operation of a medical practice owned by a hospital where split billing for professional and facility services is utilized.

FINANCIALS AND OPERATIONS | P&L

Not included:

- Pharmaceuticals, medical supplies, and equipment sold to patients primarily for use outside the practice. Examples include prescription drugs, hearing aids, optical goods, orthopedic supplies, etc. If such goods are not covered under the capitation contract, the revenue from these charges is included in “Revenue from the sale of medical goods and services”;
- The value of purchased services from external providers and facilities on behalf of the practice’s capitation patients. The cost of these purchased services is included in “Purchased services for capitation patients”;
- Charges for fee-for-service activity allowed under the terms of capitation contracts. Such charges are reported as “Gross fee-for-service charges”; or
- Capitation revenue

Total net fee-for-service collections/revenue [4300-4330, 4350-4420]¹¹

The total technical and professional net fee-for-service revenue. If the practice used accrual basis accounting, “Total net fee-for-service collections/revenue” equals “Gross fee-for-service charges” minus “Adjustments to fee-for-service charges,” minus “Bad debts due to fee-for-service activity.”

Gross capitation revenue (per member per month capitation payments, capitation patient copayments) [4700-4770]¹¹

Revenue received in a fixed per member payment, usually on a prospective and monthly basis, to pay for all covered goods and services due to capitation patients.

Included:

- Per member per month capitation payments including those received from an HMO, Medicare AAPCC (average annual per capita cost) payments, state capitation payments for Medicaid beneficiaries, and capitation payments from other medical groups;
- Portions of the capitation withholds returned to a practice as part of a risk-sharing arrangement;
- Bonuses and incentive payments paid to a practice for good capitation contract performance;
- Patient copayments or other direct payments made by capitation patients;
- Payments received due to a coordination of benefits and/or reinsurance recovery situation for capitation patients; and
- Payments made by other payers for care provided to capitation patients.

Not included:

- Payments paid to a practice by an HMO under the terms of a discounted fee-for-service managed care contract. Such payments are included in “Total net fee-for-service collections/revenue.”

Purchased services for capitation patients [7810-7828]¹¹

Fees paid to healthcare providers and organizations external to the practice for services provided to capitation patients under the terms of capitation contracts.

Included:

- Payments to providers outside the practice for physician professional, advanced practice professional, clinical laboratory, radiology and imaging, hospital inpatient and emergency, ambulance, out of area emergency and pharmacy services; and
- Accrued expenses for “incurred but not reported” (IBNR) claims for purchased services for capitation patients for which invoices have not been received.

FINANCIALS AND OPERATIONS | P&L

Incentive-based revenue [4800-4860]¹¹

Payments received from insurance companies and government agencies for incentive-based activities such as pay-for-performance, risk-sharing, shared savings, quality and technology.

Included:

- Pay-for-performance payments for reporting quality, efficiency, or patient satisfaction metrics for patients insured under feed-for-service payment contracts;
- Risk pool insurance;
- Shared savings payments (i.e. Accountable Care Organization (ACO)); and
- Incentive payments for adopting Certified EHR Technology and/or meeting quality standards (i.e. MACRA/MIPS).

Other medical revenue [4900-4950, 4970]¹¹

Other sources of medical revenue such as grants, research/clinical studies, educational subsidies, donations, honoraria and more.

Included:

- Payments received for the reproduction of patient records;
- Medical directorship revenue received by the practice and not a specific individual for providing medical administration to hospitals, skilled nursing facilities, long-term care facilities, and other healthcare organizations;
- Grant revenue from federal, state, or local government or private foundation grants for research, provision of patient care to the indigent, or case management of the frail and elderly;
- Research and clinical studies revenue from pharmaceutical studies, medical device studies, and other research activities conducted by the practice;
- Educational subsidies received by the practice for graduate medical education and training of medical, nursing, and medical technician students;
- Any endowment or gift received by the organization;
- Revenue for medical-related activities such as honoraria, educational seminars, expert witness testimonies;
- Payment to the practice for physicians working in a hospital emergency room;
- Contract revenue from a school district for physician services in conducting physical examinations or other service;

Not included:

- Charges for the delivery of services made possible by subsidies or grants were included in “Gross fee-for-service charges” and/or “Gross charges for patients covered by capitation contracts”; or
- Operating and nonoperating subsidies received from a parent organization such as a hospital, health system, PPMC, or MSO. Such items should be included in, “Financial support from parent organization (subsidies)”; or
- Paycheck Protection Program (PPP) loan forgiveness payment. Such items should be included in, “Extraordinary nonmedical revenue.”

Revenue from the sale of medical goods and services [4340-4349]¹¹

Income from the sale of medical products and revenue paid to the practice for professional services provided by practice physicians and staff members.

FINANCIALS AND OPERATIONS | P&L

Included:

- Revenue from pharmaceuticals, medical supplies and equipment sold to patients primarily for use outside the practice. This amount should be net of write-offs and discounts. Examples include prescription drugs, hearing aids, optical goods, orthopedic supplies, etc.;
- Compensation paid by a hospital, skilled nursing facility, or insurance company to a practice physician for services as a medical director;
- The hourly wages of physicians working in a hospital emergency room;
- Contract revenue from a hospital for physician services in staffing a hospital indigent care clinic or emergency room;
- Contract revenue from a school district for physician services in conducting physical exams for high school athletes;
- Revenue from the preparation of court depositions, expert testimony, postmortem reports, and other special reports; and
- Fees received from patients for the photocopying of patient medical records.

Not included:

- Capitation revenue used to pay for covered goods and services for capitation patients. Such revenue is included in “Gross capitation revenue.”

Cost of sales and/or cost of other medical activities [7900-7919]¹¹

Cost of activities that generate revenue included in “Revenue from the sale of medical goods and services,” as long as this cost is not also included in “Total operating cost” or “Nonmedical cost.”

Included:

- Cost of pharmaceuticals, medical supplies and equipment sold to patients primarily for use outside the practice. Examples include prescription drugs, hearing aids, optical goods, and orthopedic supplies; and
- Any provider consultant cost(s) within this total.

Not included:

- Cost of drugs used in providing services including vaccinations, allergy injections, immunizations, chemotherapy, and anti-nausea drugs. Such cost is included in “Drug supply”; or
- Cost of medical/surgical supplies and instruments used in providing medical/surgical services. Such cost is included in “Medical and surgical supply.”

Net other medical revenue

The difference between “Cost of sales and/or cost of other medical activities” and “Gross revenue from other medical activities.”

Nonmedical revenue (investment and rental revenue) [9100-9140, 9160-9170, 9190]¹¹

Included:

- Interest and investment revenue such as interest, dividends, and/or capital gains earned on savings accounts, certificates of deposit, securities, stocks, bonds, and other short-term or long-term investments;
- Gross rental revenue such as rent, or lease income earned from practice-owned property not used in practice operations;
- Capital gains on the sale of practice real estate or equipment, etc.;
- Interest paid by insurance companies for failure to pay claims on time;
- Bounced check charges paid by patients; and
- Gross revenue from business ventures such as a billing service or parking lot. The direct costs of such ventures should be reported as “Nonmedical cost.”

FINANCIALS AND OPERATIONS | P&L

**Not included:**

- Cash received from loans.

Extraordinary nonmedical revenue [9150, 9700]¹¹

Revenue that is unusual in nature and infrequent in occurrence.

Included:

- Legal settlement receipts;
- Environmental disaster recovery funds; and
- Paycheck Protection Program (PPP) loan forgiveness payment.

Not included:

- Revenues included in “Nonmedical revenue”.

Financial support from parent organization (Subsidies) [4960, 9180]¹¹

Medical practices may receive financial support from a parent organization such as a hospital, health system, PPMC or MSO.

Included:

- Operating subsidy income provided to the practice from a parent organization such as a hospital, health system, PPMC or MSO; and
- Nonoperating subsidy income received from parent organization such as a hospital, health system, PPMC or MSO. (i.e. Capitalization projects such as a facility construction).

Not included:

- Payments received by the practice and not a specified individual for providing medical administration to hospitals, skilled nursing facilities, long-term care facilities, and other healthcare organizations. Such items should be included in “Other Medical Revenue”.

Goodwill amortization [9250]¹¹

The annual amortization or impairment cost of goodwill. When an IDS, hospital, or PPMC purchases a medical practice, the purchase price can be thought of as having two components — the value of the tangible assets and the value of the goodwill. Goodwill is the premium paid in excess of the value of the tangible and identifiable intangible assets. If financial statements are maintained in accordance with the income tax basis of accounting, goodwill may be amortized over a period of time. If financial statements are reported in accordance with generally accepted accounting principles, goodwill is periodically reviewed for impairment. The tangible and identifiable intangible assets are typically depreciated/amortized over a period of time.

Not included:

- Depreciation of tangible or identifiable intangible assets such as the building or equipment. These depreciation costs are reported as a component of “Information technology” cost, “Building depreciation” cost, “Furniture and equipment depreciation” cost, “Clinical laboratory” cost, “Radiology and imaging” cost, and “Other ancillary services” cost.

Nonmedical cost (income Taxes) [9200-9210, 9230-9240, 9260, 9300-9530]¹¹**Included:**

- Income taxes based on net profit that is paid to federal, state, or local government. For cash basis accounting, income taxes equal the cash payment or refund for the most recent tax year paid or received in the most recent tax year plus, periodic withholding paid for those taxes. For accrual accounting, the income tax equals the total tax liability for the most recent tax year regardless of when the tax was paid, or refunds were received;
- All costs required to maintain the productivity of income producing rental property and parking lots;

FINANCIALS AND OPERATIONS | P&L

MGMA

- Losses on the sale of real estate or equipment and losses from the sale of marketable securities;
- Other nonmedical cost;
- All direct costs related to business ventures such as rental property, parking lots, or billing services, for which gross revenue is reported as “Nonmedical revenue”; and
- State taxes on medical revenue.

Extraordinary nonmedical cost [9220, 9600, 9800]¹¹

Cost that is unusual in nature and infrequent in occurrence.

Included:

- Legal settlement cost; and
- Environmental disaster recovery cost.

Not included:

- Cost included in “Nonmedical cost.”

Employed Support Staff Costs

Included:

- Salaries, bonuses, incentive payments, honoraria, and profit distributions;
- Voluntary employee salary deductions used as contributions to 401(k), 403(b), or Section 125 plans;
- Compensation for all support staff employed by all of the legal entities working in support of the medical practice represented on this survey;
- The allocated support staff cost where the practice consists of multiple legal entities. For example, an MSO managing two medical practices and employing one billing clerk who devotes an equal amount of time to each practice would add 50 percent of the one billing clerk’s compensation to the total cost of “Patient accounting,” for each managed practice; and
- Compensation for both full-time and part-time employed support staff.

Not included:

- Advanced practice provider cost, which is reported in the Provider section;
- Any benefits for employed support staff, which should be reported as “Total employed support staff benefit cost,”;
- Expense reimbursements; or
- Any benefits or the cost of contracted support staff who do not work for any of the legal entities that comprise the medical practice. These costs should be reported as “Total contracted support staff.”

General administrative staff cost [5110-5111, 5117, 5210-5211, 5217]¹¹

Cost of general administrative and practice management staff, supporting secretaries, and administrative assistants.

Included:

- Cost of executive staff such as administrator, assistant administrator, chief financial officer, medical director, site/branch/office managers, human resources, marketing, credentialing, and purchasing department staff.

FINANCIALS AND OPERATIONS | P&L

Not included:

- Cost of directors of departments listed separately. Examples include information technology director, medical records director, laboratory director, and radiology director. Such cost should be reported in “Information technology,” “Medical records,” “Clinical laboratory,” or “Radiology and imaging,” as appropriate; or
- Credentialing staff as they pertain to managed care departments, such cost should be reported in “Managed care administrative.”

FINANCIALS AND OPERATIONS | P&L

Total employed support staff benefit cost [5170, 5180, 5300-5460]¹¹

The total benefits for all employed support staff.

Included:

- Employer's share of Federal Insurance Contributions Act (FICA), payroll and unemployment insurance taxes;
- Employer's share of health, disability, life, and workers' compensation insurance;
- Employer payments to defined benefit and contribution, 401(k), 403(b), and nonqualified retirement plans;
- Deferred compensation paid or expensed during the year;
- Dues and memberships in professional organizations, state, and local license fees;
- Allowances for education, professional meetings, travel, and automobile; and
- Entertainment, country/athletic club membership, travel for spouse.

Not included:

- Voluntary employee salary deductions used as contributions to 401(k) and 403(b) plans; or
- Expense reimbursements.

Total contracted support staff cost [5500-5570]¹¹

Contracted support staff represents all the staff hired on a contract basis, not employed by any of the legal entities that comprise the medical practice. The utilization of contracted support staff occurs when the medical practice (including all the associated legal entities that comprise the medical practice) decides not to hire support staff as employees to conduct the ongoing support staff activities. Instead, the practice contracts to have these full-time and/or ongoing activities conducted by contracted staff.

One example of this type of cost would be purchased services for billing and collections activities. When a practice decides to hire a billing company to conduct billing activities that the practice employees, it is often not possible to track the hours that the billing company devotes to the given practice. Such cost is reported as "Billing and collections purchased services."

Included:

- Temporary staff working for temporary agencies; and
- Traveling nurses.

Not included:

- The cost of support staff employed directly by the practice or any of the legal entities comprising the medical practice. Such related costs are included in the "Employed Support Staff" section; or
- The cost for legal, accounting, management, and/or other consultants for services performed on a one time or sporadic basis. The costs for these types of consultants are reported as "Legal fees," "Consulting fees," and/or "Outside professional fees."

Cost allocated to medical practice from parent organization

When a medical practice is owned by a hospital, integrated delivery system, or other entity, the parent organization often allocates indirect costs to the medical practice. These indirect costs may have different names depending on the situation. Examples of alternative names are “shared services costs” or “uncontrollable costs.” These costs may be arbitrarily assigned to the medical practice may be the result of negotiations between the practice and the parent organization, or the result of some sort of cost accounting system. Often, these indirect costs include a portion of the salaries of the senior management team of the parent organization, a portion of corporate human resources costs, or a portion of corporate marketing costs.

Depending on the type of cost, the cost may be allocated to the medical practice as a function of the ratio of medical practice FTE to total system FTE, the ratio of medical practice square footage to total system square footage, or the ratio of medical practice gross charges to total system gross charges. Depending on the culture of the integrated system, these indirect costs may or may not even show up on the financial statements of the medical practice.

Not included:

- Cash loans made to subsidiaries.

Total advanced practice provider compensation cost [8410-8416, 8419, 8510-8516, 8519]¹¹

Advanced practice providers are specifically trained and licensed providers who can provide medical care and billable services. Examples of advanced practice providers include audiologist, certified registered nurse anesthetists (CRNAs), clinical nurse specialists (CNSs), clinical social workers (CSWs), dietitians/nutritionists, midwives, nurse practitioners, occupational therapists, optometrist, physical therapists, physician assistants, psychologists and surgeon assistants. The total compensation paid to advanced practice providers who comprise the “Advanced practice provider,” cost.

*Work RVUs

Include:

- RVUs for the "physician work RVUs" only; including any adjustments made as a result of modifier usage;
- Work RVUs for all professional medical and surgical services performed by providers;
- Work RVUs for the professional component of laboratory, radiology, medical diagnostic, and surgical procedures;
- Work RVUs for all procedures performed by the medical practice. For procedures with either no listed CPT code or with an RVU value of zero, RVUs can be estimated by dividing the total gross charges for the unlisted or unvalued procedures by the practice's known average charge per RVU for all procedures that are listed and valued;
- Work RVUs for procedures for both fee-for-service and capitation patients;
- Work RVUs for all payers, not just Medicare;
- Work RVUs for purchased procedures from external providers on behalf of the practice's fee-for-service patients;
- Anesthesia practices should provide the physician work component of the RVU for flat fee procedures only such as lines, blocks, critical care visits, intubations, and post-operative management care;
- All RVUs associated with professional charges, including both medically necessary and cosmetic RVUs; and
- Work RVUs produced from physician-administered chemotherapy drugs (do not include if the chemotherapy drugs were administered by anyone other than the physician).

Do not include:

- RVUs for "malpractice RVUs";
- RVUs for other scales, such as McGraw-Hill, California;
- RVUs for purchased procedures from external providers on behalf of the practice's capitation patients;
- RVUs that have been weighted by a conversion factor. Do not weigh the RVUs by a conversion factor;
- RVUs where the Geographic Practice Cost Index (GPCI) equals any value other than one. The GPCI must be set to 1.000 (neutral); or
- RVUs produced by the administration of chemotherapy drugs by someone other than the physician (i.e. nurses, techs, etc.)

*Work RVUs

Include:

- RVUs for the “physician work RVUs,” “practice expense,” and “malpractice RVUs,” including any adjustments made as a result of modifier usage;
- RVUs for all professional medical and surgical services performed by physicians, advanced practice providers, and other physician extenders such as nurses and medical assistants;
- RVUs for the professional component of laboratory, radiology, medical diagnostic, and surgical procedures;
- For procedures with either no listed CPT code or with an RVU value of zero, RVUs can be estimated by dividing the total gross charges for the unlisted or unvalued procedures by the practice’s known average charge per RVU for all procedures that are listed and valued;
- RVUs for procedures for both fee-for-service and capitation patients; and
- RVUs for all payers, not just Medicare.

Do not include:

- RVUs for other scales such as McGraw-Hill, California;
- The technical component (TC) associated with any medical diagnostic, laboratory, radiology, or surgical procedure. If your practice cannot break this out, report RVUs and select the appropriate response to the question regarding technical component. If you can report total RVUs without technical component, answer 0% for the technical component question; or
- RVUs where the Geographic Practice Cost Index (GPCI) equals any value other than one. The GPCI must be set to 1.000 (neutral).

*Total ASA units

ANESTHESIOLOGY SPECIALTIES ONLY

For anesthesiology practices, provide the American Society of Anesthesiologists (ASA) units. The ASA units for a given procedure consist of three components:

- Base unit;
- Time in 15-minute increments; and
- Risk factors.

Please note:

- Adjustments should be made if the provider supervises a CRNA that is not employed by the reporting practice to avoid double reporting of ASA Units under the physician and advanced practice provider.
- Do not duplicate units for split bills. Instead, report units on a per case basis.

ACCOUNTS RECEIVABLE

Provide the information regarding the age of your practice's accounts receivable (to the nearest whole dollar). Do not include accounts that have been assigned to collection agencies. If your practice does not have any accounts receivable for a certain range, enter "0."

*CURRENT TO 30 DAYS

Amounts owed to the practice by patients, third-party payers, employer groups, and unions for fee-for-service activities before adjustments for anticipated payment reductions, allowances for adjustments, or bad debts. Amounts assigned to "Accounts receivable" are due to "Gross fee-for-service charges." Assigning a charge into "Accounts receivable" initiates at the time a practice submits an invoice to the payer or patient for payment. For example, if an obstetrics practice establishes an open account for accumulation of charges when a patient is accepted into a prenatal program and the account will not be invoiced until after delivery, then "Accounts receivable" will not reflect these charges until the creation of an invoice. Deletion of charges from "Accounts receivable" is done when the practice receives payment, turns over debt to a collection agency, or writes off the account as bad debt. "Accounts payable to patients and payers" are subtracted from "Accounts receivable" before reporting "Accounts receivable."

This is the net amount owed after patient refunds.

Do not include:

- Capitation payments owed to the practice by HMOs.

*31 TO 60 DAYS – SEE CURRENT TO 30 DAYS.

*61 TO 90 DAYS – SEE CURRENT TO 30 DAYS.

*91 TO 120 DAYS – SEE CURRENT TO 30 DAYS.

*OVER 120 DAYS – SEE CURRENT TO 30 DAYS.

*TOTAL ACCOUNTS RECEIVABLE

Add "Current to 30 days," "31 to 60 days," "61 to 90 days," "91 to 120 days," and "Over 120 days."

DID YOUR PRACTICE RE-AGE ACCOUNTS RECEIVABLE WHEN A BALANCE WAS TRANSFERRED TO A SECONDARY CARRIER OR THE PATIENT'S PRIVATE ACCOUNT?

Answer "Yes" if accounts receivable were re-aged when a second insurance company or the patient was billed after the first insurance company refused to pay the entire billed amount.

Percent of patient population that logged in to the patient portal

The percent, in whole numbers, of the practice's patient population that not only enrolled, but also logged in to the patient portal. A patient portal is a secure, online platform where patients can perform administrative tasks associated with their care. Examples of these tasks include scheduling appointments, paying bills, accessing test results, communicating with providers and medical staff, viewing medical records, filling new prescriptions, and requesting prescription refills.

Percent of patient population that used the patient portal to do the following:

- Schedule appointments
- Pay bills online
- Access test results
- Communicate with providers and medical staff
- View, download or transmit medical records
- Fill a new prescription
- Refill prescriptions

Expected time (in hours) for staff to respond to patient portal communications

The expected number of hours staff had to respond to patient portal communications. If the amount of time varied by activity, report the average.

Average length of time (in minutes) patients spent on hold after an initial answer

The average length of time in minutes per telephone call that patients spent on hold after the call was initially answered. Average call length in minutes for inbound calls The average duration in minutes per telephone call for inbound calls, calls coming in, measured from when the call is answered and including any hold time, talk time and until the call is completed.

Average speed of answer in seconds for inbound calls

The average amount of time in seconds it takes to answer inbound telephone calls, calls coming in.

Average call abandonment percentage rate for inbound calls

The percentage rate, in whole numbers, of total inbound calls, calls coming in, that were disconnected and/or not answered.

Percent of practice's total appointments that were same-day appointments

The percent, in whole numbers, of the practice's total number of appointment slots per day that are scheduled for same-day patients to accommodate for last-minute appointment requests.

Average wait time (in minutes) the patient was in the:

- Waiting area before being brought to the exam room
- Exam room before seeing the provider

Average throughput or total cycle time for the patient from check-in to check-out

The number of minutes between when a patient arrives at the practice and when they leave the practice including time spent waiting in the waiting area, exam room and checkout time.

FINANCIALS AND OPERATIONS | P&L

Average scheduled appointment slot-time (in minutes) for the following:

A designated block of time allotted to providing patient care.

- **New Patient Visits:** An individual who has not previously received care from a provider in the same group practice, within the past three years.
- **Established Patient Visits:** An individual who has previously received care from a provider in the same group practice, within the past three years.
- **Preventive Care Visits:** Typically, a yearly appointment intended to prevent illness and detect health concerns early before symptoms are noticeable.

Average third next available appointment (in business days) for the following:

The number of business days from the start of each day to the third open appointment. This does not count days when the office is closed for business, however, days where the provider is unavailable due to vacation, administrative time, sick leave, etc. should be included in the count. Appointment slots reserved for same-day appointments, should not be included the count for third next available appointment.

- **New Patient Visits:** An individual who has not previously received care from a provider in the same group practice, within the past three years.
- **Established Patient Visits:** An individual who has previously received care from a provider in the same group practice, within the past three years.
- **Preventive Care Visits:** Typically, a yearly appointment intended to prevent illness and detect health concerns early before symptoms are noticeable.

Average number of appointment slots in a schedule per day per provider for the following:

A designated block of time allotted to providing patient care.

- **New Patient Visits:** An individual who has not previously received care from a provider in the same group practice, within the past three years.
- **Established Patient Visits:** An individual who has previously received care from a provider in the same group practice, within the past three years.
- **Preventive Care Visits:** Typically, a yearly appointment intended to prevent illness and detect health concerns early before symptoms are noticeable.
- **Same-day Appointments:** The total number of appointment slots per day that are scheduled for same-day patients to accommodate last-minute appointment requests.
- **Unfilled Appointments:** Total appointment slots that were not filled by a scheduled patient visit or purposely unscheduled per day.

Practice's no-show rate percentage

The percentage rate, in whole numbers, measuring appointments that were scheduled but patients did not show up for or reschedule their scheduled time, as a percent of total appointments.

How much did you charge for no-show appointments?

The amount charged when a patient does not show for a scheduled appointment.

How many minutes late until a patient was considered a no-show?

The number of minutes that a patient has after their scheduled appointment starts until a patient is marked as having not shown.

FINANCIALS AND OPERATIONS | P&L

Practice's appointment cancellation rate percentage

The percentage rate, in whole numbers, measuring appointments that were scheduled but patients or the provider/practice called to cancel their scheduled appointment, as a percent of total appointments.

Percentage of appointments that were rescheduled within 30 days of cancellation

The percentage, in whole numbers, of appointments that were rescheduled within 30 days after cancellation by either the patient or by the provider/practice.

Percent of copayments that were collected at time of service

The amount owed prior to receiving a service by the patient that typically supplements insurance coverage.

Percent of patient due balances that were collected at time of service

The amount owed by the patient after applying the insurer's negotiated discount and the insurer's payments.

Average number of claims a biller submitted for payment in a day for:

A written request for payment submitted to a third party.

- **Commercial:** The number of commercial claims (excluding Medicare Advantage) submitted in a day.
- **Government:** The number of government claims submitted in a day. Government claims would include Medicare (excluding Medicare Advantage), Medicaid, and any other federal, state, or other government body.
- **Follow-Up:** The number of outstanding claims and unpaid balances with payers (including commercial and government) submitted in a day.

Percentage of claims that were denied on first submission

The percentage, in whole numbers, of claims that were denied by payers on first submission. A claim is a written request for payment submitted to a third party.

Average charge-posting lag time between date of service and claim drop date to payer

The number of days between when a patient was seen (date of service) and when the claim was posted for third-party payment.

Average number of patient encounters a coder processed in a day

An encounter is an instance of direct provider to patient interaction, regardless of setting (including tele-visits and e-visits), between a patient and a healthcare provider who is vested with the primary responsibility of diagnosing, evaluating, and/or treating the patient's condition, where the provider exercises clinical judgment that may or may not be billable.

Value-Based Contracts Follow-Up Questions

If your organization participates in value-based contracts, you will be prompted to provide data on the following questions.

FINANCIALS AND OPERATIONS | P&L

The number of contracts held by your practice by payer type:

- **Commercial:** The number of commercial payer contracts (excluding Medicare Advantage) held by your practice.
- **Government:** The number of government programs participated in by your practice. Government payers would include Medicare (excluding Medicare Advantage), Medicaid and any other federal, state, or other government body.
- **Medicare Advantage:** The number of Medicare Advantage payer contracts held by your practice. Medicare Advantage is part of the Medicare Program, and may include Part A, B and D benefits (and more). However, the benefits are instead offered through contracts with private insurers.

How many covered lives were attributed to this practice?

The total number, in whole numbers, of covered lives across all your practice's payer contracts.

The number of contracts held by your practice that included a risk or value-based program or reimbursement methodology by payer type:

- **Commercial:** The number of commercial payer contracts (excluding Medicare Advantage) held by your practice that included a risk or value-based program or reimbursement methodology.
- **Government:** The number of government programs participated in by your practice that included a risk or value-based program or reimbursement methodology. Government payers would include Medicare (excluding Medicare Advantage), Medicaid and any other federal, state or other government body.
- **Medicare Advantage:** The number of Medicare Advantage payer contracts held by your practice that included a risk or value-based program or reimbursement methodology. Medicare Advantage is part of the Medicare Program, and may include Part A, B and D benefits, however, the benefits are instead offered through contracts with private insurers.

How many covered lives were attributed to value-based contracts in this practice?

The total number, in whole numbers, of covered lives across all your practice's value-based contracts.

Across all payer types and all payer contracts, which specific measure(s) were a focus for your practice?

Regardless of the payer or contract, describe which quality measures were a focus for your practice.

Among your practice's covered lives attributed under value-based contracts, what was your practice's:

- **Hospital admission rate:** Specifically, for patients under value-based contracts, indicate the percent, in whole numbers, of your practice's hospital admission rate. To calculate, divide the number of hospital admissions experienced by patients tied to value-based contracts by the total number of patients tied to value-based contracts.
- **Hospital 30-day readmission rate:** Specifically, for patients under value-based contracts, indicate the percent, in whole numbers, who experienced unplanned readmission to a hospital within 30 days of a previous hospital stay. A 30-day hospital readmission refers to when a patient is admitted to a hospital within 30 days or less of being discharged from a hospital for a previous stay. To calculate, divide the number of patients tied to value-based contracts with hospital readmission within 30 days by the total number of hospital discharges for patients tied to value-based contracts.
- **Emergency department utilization rate:** Specifically, for patients under value-based contracts, indicate the percent, in whole numbers, of your practice's emergency department utilization rate. To calculate, divide the number of inpatient and/or outpatient emergency department admissions experienced by patients tied to value-based contracts by the total number of patients tied to value-based contracts.
- **30-day post-operative infection rate:** Specifically, for patients under value-based contracts, indicate the percent, in whole numbers, of your practice's 30-day post-operative infection rate. Post-operative infection is defined as any infection that occurs within 30 days of operation and may be related to the operation itself or the postoperative course. To calculate, divide the number of post-operative infections experienced by patients tied to value-based contracts within 30 days of operation by the total number of patients tied to value-based contracts.
