Yasseen Mansour, Chairman Comments:

I am very pleased to share with you our fourth quarter and full year 2015 financial results, a record year for the Company, driven by robust pre-sales market, accelerated construction works, backed by strong management team and financial position.

The Company realized a record set of financial results on all fronts for the twelve month ending December 31, 2015. Our pre-sales for the year has for the first time ever broken the EGP6 billion mark, recording EGP6.3 billion with a growth of 61% YoY, breaking our previous record of EGP5.5 billion in FY2010. Growth in pre-sales was fuelled by demand for primary housing as Egyptians continue to migrate from Cairo, heading West and East, as well as demand for secondary homes in the North Coast.

In East Cairo, we witnessed a record quarter with pre-sales of EGP889 million, of which EGP628 million were generated from the recently launched Capital Gardens, another testimony to the resilient Egyptian property market, and demand for Palm Hills Developments product offerings, positioning the Company as the top-tier developer.

We continued our efforts with expediting projects' deliveries; the Company handed over record 1,573 units, 60% more than in previous year. Moreover, the Company spent EGP1.9 billion on construction, and collected EGP2.1 billion from receivables and new sales, a growth of 48% YoY.

Our Balance Sheet maintained a strong position with Total Equity (unadjusted) of EGP6.6 billion, Receivables of EGP7.6 billion. Net Debt stood at EGP1.5 billion with Net Debt/EBITDA of 1.9x, supported by steady EBITDA growth and improvements in the Company's cash position.

Revenue for the year recorded EGP3.6 billion, alongside Gross Profit of EGP1.2 billion, an EBITDA of EGP0.8 billion, and a remarkable Net Profit after Minority Interest of EGP1.0 billion, the highest Net Profit the Company ever achieved.

With regards to recurring income portfolio, in West Cairo, we have completed all construction works in Street 88 strip-mall and successfully leased 60% of total GLA. Phase 8 office building is progressing as planned and we received an indicative interest for 70% of the project's GLA. In East Cairo, we are developing Village Gate & VGK malls, with plans to finalize ongoing construction works by end of 2016. Outstanding reservations on VGK mall reached EGP110 million.

We continue to replenish our land bank, other than Capital Gardens which was secured and launched during the second half of 2015, on December 21, 2015, the Company signed the final agreement with NUCA, to co-develop on a revenue sharing basis, an integrated residential community in East Cairo spreading over 2.1 million sqm. It is expected to create 150,000 job opportunity, supported by international and local expertise. The community will house 40,000 Egyptian citizens on a built up area of up to 1.8 million sqm. Pre-sales and construction activities are expected to commence during the third quarter of 2016. We expect to reach an agreement with the Egyptian government for the co-development of a mixed use 42 million sqm in West Cairo during the first half of 2016.

We are still considering a number of land bank opportunities in the North Coast, capitalizing on the co-developments scheme and attractive acquisitions. The Company remains on track to complete projects currently under-development by end of 2017/early 2018, and capitalize on the recently announced co-development agreements to deliver solid financial results and livable communities.

Given our improving cash flow position and the existing projects coming to an end in terms of construction, on February 4, 2016, the Company's Board of Directors agreed, for the first time ever, to put forward a proposed cash dividend of EGP0.15/share and bonus shares issuance of 1/20, subject to our shareholders' approval in the upcoming Annual General Assembly planned for March 2016. Moving forward, we are planning to return excess cash to shareholders with plans to distribute almost 30% from annual free cash flows in the form of cash dividend to shareholders or share buyback – depending on market conditions.
