**LIMITED REVIEW REPORT
ON INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

To the Chairman and Members of the Board of Directors

Palm Hills Development

INTRODUCTION

We have reviewed the accompanying interim consolidated statement of financial position of Palm Hills Development "PHD" (S.A.E) as of 31 March 2024 as well as the related interim consolidated statements of profit or loss and comprehensive income and the interim consolidated statements of changes in equity and cash flows for the Three-month period ending on that date and a summary of significant accounting policies and other explanatory notes, Management is responsible for the preparation and fair presentation of these interim financial statements in accordance with Egyptian Accounting Standards Issued by Ministerial Resolution No. (110) for the year 2015 and amended by Ministerial Resolution No. (69) for the year 2019, our responsibility is limited to expressing a conclusion on the periodic financial statements in accordance with our limited examination of them.

SCOPE OF REVIEW

We conducted our limited review in accordance with the Egyptian Standard on Auditing for the tasks of limited examination of the periodic financial statements of the entity, and the limited examination of the periodic financial statements includes making inquiries mainly from persons responsible for financial matters and accounting, applying analytical procedures, and other limited examination procedures. The limited review is substantially less in scope than the audit conducted in accordance with Egyptian Standards on Auditing, and therefore we cannot obtain confirmation of all significant matters that may be discovered in the audit process, and accordingly we do not express an audit opinion on these financial statements.

CONCLUSION

Based on our limited review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial statements It does not express fairly and clearly in all its important aspects the consolidated financial position of Palm Hills Development An Egyptian Joint Stock Company on March 31, 2024, and its financial performance and consolidated cash flows for the three months ending on that date in accordance with the Egyptian Accounting Standards issued by Ministerial Resolution No. (110) for the year 2015 and amended by Ministerial Resolution No. (69) for 2019.

EXPLANATORY PARAGRAPHS:

- With not qualified on our opinion, some lands have been recorded in the books of the company and its subsidiaries under preliminary contracts or letters of allocation received from the New Urban Communities Authority (in the Sixth of October City, New Cairo City and from the competent agencies entrusted with concluding primary contracts and issuing letters of allocation), where The transfer and registration of ownership depends on the fulfillment of the financial criteria and the constructional executive conditions and the completion of those projects, taking into account that only the construction costs are established in the joint projects without the cost of the lands on which those projects are built.
- In addition to what was mentioned in the previous paragraph, the company has recorded the revenues generated from the units under construction or under delivery of the contracted units in application of the accounting policy for the recognition of revenues according to the extent of fulfillment of contract obligations at the contract unit level, where the progress in fulfilling contract obligations is determined and measured using The output method is by counting the completed performance up to the date of preparing the financial statements based on the opinion of the engineering management of the company for the contracted units at the level of each stage (Notes No. 29, 30, 63 64).
- In addition to what was mentioned in the previous two paragraphs, the consolidated financial statements of Palm Hills Development Company have been prepared As of March 31, 2024 based on the internal financial statements of the subsidiaries at the date the accompanying consolidated financial statements were prepared.

9. **STATEMENT OF COMPLIANCE**

The group companies During the three months ending on mar 31, 2024, committed themselves to applying the new Egyptian accounting standards issued by Ministerial Resolution No. 110 of 2015 and amended by Ministerial Resolution No. 69 of 2019, and to follow the same accounting policies previously applied when preparing the latest financial statements on dec 31, 2023 which have not changed Any amendments or any update.

10. SIGNIFICANT ACCOUNTING POLICIES APPLIED

a) Basic of consolidated financial statements preparation

The Company's management is responsible for the preparation the financial statements. The consolidated financial statements are prepared in accordance with Egyptian Accounting Standards issued by ministerial resolution NO. 110 of 2015 and amended pursuant to ministerial resolution NO. 69 of 2019 the relevant Egyptian accounting stand were applied when preparing the financial statement on Mar 31 2024, with the exception of the un related Egyptian accounting stand.

b) Basic of consolidation

The consolidated F.S include a total grouping of subsidiaries which are all companies in which Palm Hills Development Company has the ability to control the F.S and operating polices in general or owns more than half of the voting rights, and the potential voting rights that can be exercised or transferred are taken in to account when determining Palm Hills Development Company didn't control another company or not, and the consolidated F.S of Palm Hills Development Company "Egyptian joint stock company" include the F.S of the subsidiaries mentioned in note no. (8d) except for the following companies.

The consolidated financial statements of Palm Hills Developments Company include its subsidiaries with the exception of the following:

	<u>Percentage</u> <u>share %</u>	<u>Nature</u>
Coldwell Banker Palm Hills for Real Estate	49%	Associates
EFS Palm Facilities Services	49%	Associates
Inspired for Education	49%	Associates
The Egyptian International Company For Higher Education	40%	Associates
Disney Investment	35.52%	Associates
The cocory-cor Fund and Restaurant Supply	29.82%	Associates

- In preparing consolidated financial statements, the Company combines the financial statements of the parent company and its subsidiaries line-by-line by adding together like items of assets, liabilities, equity, income and expenses the following steps are then taken:

- 1- Consolidated financial statements shall be prepared using uniform accounting policies with necessary adjustments to unify those polices when preparing the consolidated F.S.
- 2- Excluding the investments of the parent company in its share of the total equity of the investee company and treating the difference between its intimal cost of acquisition pr investment and parent company's share in the total equity of the investee company as positive good will that is treated as stated in note no. (10C) as negative good will they are included directly in the groups consolidated I.S state.
- 3- Excluding amounts paid to increase or supplement the capital of subsidiaries.
- 4- Compiling items, balance, and totals for all elements of the financial position, income statement, cash flows and changes in equity, taking in to account the dated pf controlling or acquiring subsidiaries and making the necessary adjustments to the elements of cost of activity, working progress and projects under implementation, which resulted from the application of the purchase method for accounting on good will arising from the acquisition.

- 5- Excluding all balances and the effect or other transaction between all companies within the group have been excluded.
- 6- Excluding profits or losses resulting from transactions or exchanges between group companies unless the effects of those transactions and exchanges are excluded or transferred to a third party.
- 7- the non-controlling rights in the subsidiaries (according to the percentage of the contribution of the other shareholders in the capital and equity, as well as the profits and losses in the subsidiaries).
- 8- The financial statements of the investee company are not grouped into the group's consolidated financial statements if the investing company loses control and influence over the investee company, as of the date of losing control.

c) Business combination

The business combination is accounted for by applying the acquisition method, identifiable acquired assets are initially recognized separately from goodwill, as well as incurred liabilities and any non-controlling rights in the acquiring entity. The indirect costs related to the acquisition are treated as an expense in the Years in which those costs are incurred and the services are received, excluding the costs of issuing equity or debt instruments directly related to the acquisition process. (Egyptian Accounting Standard 29 on Business Combinations).

d) Intangible assets

1- Goodwill

Goodwill arises in the group's consolidated financial statements when the cost of investing in the investee company exceeds the investing company's share in the net fair value of the assets and liabilities of the investee company.

2- Other intangible assets

Intangible assets are non-monetary assets which are without physical substantive. Intangible assets arise from contractual or other legal rights and from which future economic benefits (inflows of cash or other assets) are expected to flow and can be measured reliably. Intangible assets are initially measured at cost and to be re-measured at each financial year-end at cost of acquisition less accumulated amortization and accumulated impairment losses, which represents the fair value of those assets at that date.

e) Use of estimates and judgments

The preparation of financial statements in accordance with Egyptian accounting standards requires that it be relied on the best assumptions and estimates made by the management and what it deems appropriate to develop and apply accounting policies to reflect the substance and economic content of the transactions that are made and related to the company's basic activity (revenues from current activity, estimated cost until completion of the project, impairment of assets, usufruct, real estate investments, deferred taxes, fair value of financial instruments), and accordingly, those estimates and assumptions made in the light of the best data and information available to management may directly affect the values of revenues and costs associated with those estimates and the values of related assets and liabilities in the event The difference in the estimates made on the date of preparing the statements from the actual reality in the following period, without prejudice to the extent to which the financial statements express the reality of the company's financial position and its cash flows for the current period.

f) Changes in accounting policies

It is represented by the change in the principles, foundations, rules and practices that the establishment applies when preparing financial statements, by shifting from one acceptable accounting policy to another acceptable accounting policy, and within the framework of Egyptian accounting standards, where the voluntary application of the new policy has a positive impact on the extent to which the results of the application of that policy are expressed. The policy affects the essence of the company's transactions and operations and the resulting effects on the reality of the financial position and the results of the company's business. The effects of that change in policies are proven retroactively and those effects are proven by retained earnings within equity (if any).

11. INVESTMENTS

a) Investments in subsidiaries

Subsidiaries are all companies that the company controls through its participation in the investee and has the ability to influence those investments through its power over them are included within the investments in subsidiaries.

Investments in subsidiaries are stated at cost method. According to this method, investments recorded at cost- cost of acquisition- at the purchase order date less permanent impairment losses, if any, as a charge to the income statement (profit or losses) for each investment's subsidiaries are all company controls through its.

b) Investments in Associates

Subsidiaries are all companies over which the Company has significant influence and that is neither a subsidiary nor an interest in a joint venture. Investments in Associates are stated at equity method, under the equity method the investments in Associates are initially recognized at cost and the carrying amount is increased or decreased to recognize the investor's share of the profit or loss of the Associates after the date of acquisition.

Distributions received from Associates reduce the carrying amounts of the investments. As an exception, investments in Associates are initially recognized at cost based on preparing the consolidated financial statements available for public use.

c) Investments properties

Investment property is property (land or a building or both) held to earn rentals or for capital appreciation or both, rather than for use in the ordinary course of business. Investment property includes lands held for sale on long term. Investment property does not include property acquired exclusively with a view to subsequent disposal in the near future or for development and resale. Investment property Investment property is initially measured at cost, including transaction costs, subsequent to initial recognition Investment property is measured at cost less accumulated depreciation and any impairment in value. Investment property is derecognized on disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposal.

12. PROJECTS UNDER CONSTRUCTION

Include the direct and indirect cost of land allocated to the Company for engaging in its main activity which had been allocated to build golf courses and hotels in Palm Hills Residential Compound in 6th of October City, as well infrastructure and construction costs of such projects. Projects under construction also include acquisition of commercial shops from an Associates company.

13. **FIXED ASSETS**

Fixed assets are stated at historical cost –cost of acquisition-and to be depreciated by straight line method over the estimated useful life of the asset starting from the date of using the asset. Cost of acquisition does not include subsequent expenditure relating to routine maintenance or to ensure that a fixed asset maintains its original assessed standard of performance and useful life and should be charged to the income statement. Carrying amount of fixed assets after initial measurement is stated at historical cost less accumulated depreciation and cumulative impairment losses (if any). The estimated useful lives are as follows:

<u>Asset</u>	<u>Rate</u>
Buildings	5%
<u>Machinery and equipment</u>	
Tools & Equipment	25%
Furniture & Fixtures	25%
Measuring equipment	25%
<u>Office furniture and fixtures:</u>	
Computer hardware and software	33.33 %
office equipment	25%
Furniture and fixtures	25%
Scaffolding and turnbuckles	25%
Transportation and transportation	25%

The carrying amount of a fixed asset should be derecognized on disposal or when no future economic benefits are expected to be earned from its disposal. The gain or loss on the disposal of an asset is the difference between the proceeds and the carrying amount and should be in profit and loss.

Impairment Fixed assets are excluded upon disposal or when no future economic benefits are expected to be obtained from their use or sale in the future any gains or losses arising on disposal of the asset are recognized in the income statement (profit & losses) in the Year in which of the asset it disposal.

The residual value, the useful life and the depreciation method of an asset should be reviewed at least at each financial year-end.

An asset is impaired when its carrying amount exceeds its recoverable amount, At the end of each reporting Year, an entity is required to assess whether there is any indication that an asset may be impaired and therefore the asset should be written down to its recoverable amount and the impairment loss shall be recognized in the income statement.

An impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized, and it is limited so that the asset's carrying amount (as a result of the impairment loss reversal), its recoverable amount or The book value that would have been determined (net of depreciation) unless the loss resulting from the impairment of the value of the asset is recognized in previous years, and the response is recorded in any loss resulting from the impairment of the value of an asset in the income statement (profits and losses)

14. WORK IN PROCESS

Work in process includes direct and indirect cost of land allocated to the Company for it to carry out its main activity whether the Company started the marketing activates for such lands or not, as well as construction and infrastructure costs and other indirect construction costs, that are related to contracted units, in which the required criteria of percentage of completion to be achieved has is not met yet to be recognized in income statement recognizing revenues in light of the application of Egyptian accounting standard no. (48) by measuring the progress in meeting performance obligations to be included in the income statement (profit & losses).

15. COMPLETED UNITS READY FOR SALE

Completed units ready for sale represent those units the Company started to build before or in conjunction with their marketing strategy and in accordance with the Master Plan.

where the finished units prepared for sale (apartments, cabins, and chalets) are recorded at cost

Where all costs associated with those units of land costs, construction costs and indirect costs are charged to a work in progress item until the completion of all work at that stage, where the square meter share of the total costs is determined and therefore the cost of the units is determined according to their area.

Including the unit cost in an item of complete units, provided that the unit cost is included in the income statement (profits and losses) against the contractual value at a point in time, with the actual delivery of those units, which represents the point of transfer of control to the customer, provided that those units are re-measured at cost or net recoverable value, whichever is lower. This policy applies to units, whether they are residential units - apartments - or commercial or administrative units.

16. NOTES RECEIVABLE

Notes receivable represent the checks which have certain maturity dates which the Company received as bank guarantees for the contractual values of the contracted units. Notes receivables are initially recognized at fair value at the date of contract and subsequently measured at amortized cost based on discounted future cash flow using the effective interest method.

17. TREASURY STOCKS

These are the shares of the company acquired in accordance with the decisions of the board of directors approved in this regard, and they are proven at the cost of the acquisition deducted from the equity and prove profits or losses of sale within equity.

the acquisition of the company's shares contained in Law 159 of 1981 and its amendments, as well as in accordance with the rules of listing and writing off securities in the Stock Exchange and the instructions of the Financial Supervisory Authority where treasury shares are recorded in the financial statements at the cost of acquisition (acquisition), it is presented as a deduction from equity, provided that the change in value (positive or negative) that results from its disposal within equity is recognized in the financial statements.

18. IMPAIRMENT IN ASSETS

18/1 Financial Assets

The company applies a three-stage approach to measure the expected credit losses from financial assets recorded at amortized cost and debt instruments at fair value through other comprehensive income. The assets move between the following three stages based on the change in the credit quality of the financial asset since its initial recognition.

Stage one: 12-month expected credit loss

The first stage includes financial assets on initial recognition that do not have a significant increase in credit risk since initial recognition or that have relatively low credit risk. For these assets, 12-month expected credit losses are recognized

12-month expected credit losses are the expected credit losses that may result from a default event within 12 months after the date of the financial statements.

Stage 2: Lifetime ECL - with no credit impairment

The second stage includes financial assets that have had a significant increase in credit risk since initial recognition, but there is no objective evidence of impairment. Expected credit losses are recognized over the life of those assets, life expected credit losses are the expected credit losses resulting from all possible failures over the expected life of the financial instrument.

At the end of each reporting Year, the Company assesses whether there has been a significant increase in the credit risk of financial assets since the first recognition. The Company uses both quantitative and qualitative information to determine whether there has been a significant increase in credit risk based on the characteristics of the financial asset. Quantitative information can be a downgrade of a credit rating without an investment grade. Qualitative information is obtained by monitoring current or expected adverse changes in business, financial or economic conditions that are expected to cause a material (negative) change in the debtor's ability to meet its obligations to the company.

In addition, the Company uses its own internal credit rating indicators to apply quantitative factors in assessing whether there has been a significant increase in credit risk. The company considers that the credit risk has increased significantly if the internal credit rating deteriorates significantly at the end of each financial Year compared to the original internal rating, if a significant increase in material risk is identified, this leads to the transfer of all instruments in the range held with that party from the first to the second stage.

Stage Three: Lifetime Expected Credit Loss - Credit Impairment

The third stage includes financial assets for which there is objective evidence of impairment at the date of the financial statements. For these assets, life-long expected credit losses are recognized.

The company identifies financial assets for which there is objective evidence of impairment under Egyptian Accounting Standard No. (47) by applying the definition of default used for credit risk management purposes. The company defines default as: any counterparty who is unable to meet its obligations (regardless of the amount involved or the number of days due).

When applying this definition, the following information may serve as evidence that a financial asset is credit-impaired:

- a breach of contract such as default or late payment.
- it is probable that the customer will enter bankruptcy or other financial restructuring;
or
- The client faces great financial difficulty due to the disappearance of an active market.

The company reviews all of its financial assets, except for the financial assets that are measured at fair value through profit or loss, to assess the extent of impairment in their value, as shown below. Financial assets are classified at the date of the financial statements into three stages

- The first stage: financial assets that have not experienced a significant increase in credit risk since the date of initial recognition, and the expected credit loss is calculated for them for a Year of 12 months.
- The second stage: the financial assets that have witnessed a significant increase in credit risk since the initial recognition or the date under implementation, and the expected credit loss is calculated for them over the life of the asset.
- The third stage: the financial assets that have experienced impairment in their value, which requires calculating the expected credit loss over the life of the asset on the basis of the difference between the book value of the instrument and the present value of the expected future cash flows.

Credit losses and impairment losses relating to financial instruments are measured as follows:

- The financial instrument is classified as low risk upon initial recognition in the first stage and the credit risk is continuously monitored by the company's credit risk department.
- If it is determined that there has been a significant increase in the credit risk since the initial recognition, the financial instrument is transferred to the second stage, where it is not yet considered impaired at this stage.
- If there are indications of impairment in the value of the financial instrument, it is transferred to the third stage
- The financial assets created or acquired by the company are classified and include a higher rate of credit risk than the company's rates for low-risk financial assets at the initial recognition of the second stage directly, and therefore the expected credit losses are measured on the basis of the expected credit losses over the life of the asset.

18/2 Impairment of non-financial assets

Impairment of assets is the amount by which the carrying amount of the asset or cash-generating unit exceeds its recoverable amount, which represents the fair value of the asset less costs to sell or its value in use (the present value of future cash flows expected to occur from the asset), whichever is greater, where the impairment in the value of the asset is charged On the income statement (profits and losses), and in the event that there are indications of an increase in the value of the asset, the loss resulting from the impairment of the value of the asset is reversed in the income statement (profits and losses) provided that it does not exceed the book value of the asset before reducing the value of impairment.

19. PROVISION

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event and it is probable that a flow of economic benefits will be required to settle the obligation; and the amount can be estimated reliably. Provision is charged to income statement. The provisions balances are reviewed on a going basis at the reporting date to disclose the best estimate on the current year and reflect the present value of expenditures required to settle the obligation where the time value of money is material.

20. LAND CONTRACTED LIABILITY

Land contracted liability represents the obligations which incurred for purchase lands at certain amount and on certain maturity dates. Land purchase liability is recognized initially at the fair value. Land purchase liability is subsequently stated at amortized cost using the effective interest method.

21. COMPLETION OF INFRASTRUCTURE LIABILITIES

Completion of infrastructure liabilities presents the difference between the estimated cost and actual cost of the infrastructure of the contracted units and to be deducted from earned revenue from plot of land of the contacted units.

22. CAPITALIZATION OF BORROWING COST

The capitalization of borrowing costs is the value of the expenses, costs and financing burdens resulting from obtaining loans or bank facilities, whether to finance the acquisition, creation or production of an asset eligible for capitalization, which could have been avoided if those assets were not acquired, and such capitalization begins at the start of spending on the asset. The qualifying asset and the actual incurring of borrowing costs, in addition to continuing to carry out the work related to that asset, and the continuation of capitalization is discontinued when the qualifying asset is completed, whether for use or sale. Income (profits and losses) when realized in addition to the interest for the Years in which the effective construction of the asset is disrupted.

23. INCOME TAX

Taxation is provided in accordance with the Income Tax Law No. 91 of 2005.

(A) Current income tax

Current tax assets and liabilities are measured at the amount expected to be paid to (recovered from) the taxation authorities.

(B) Deferred tax

Deferred tax is provided using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

24. SHARE PREMIUM

Share premium is the amount received by a company over and above the face value of its shares. After deducting the issuance expenses attributable to the issuance, a part of share premium is credited to the legal reserve with limits of half of the Company's issued share capital, while the remaining balance of share premium is credited to special reserve, general assembly is responsible for determining the uses of such reserve, and it cannot be used for dividends.

25. BORROWING COSTS

The amount and value of the borrowing is initially recognized in the values received, and the amounts due within a year are classified within the current obligations, unless the company has the right to postpone the payment of the loan balance for a Year of more than one year after the date of the financial statements, then the loan balance is presented within the long-term liabilities.

The borrowing and loan costs are measured after the initial recognition of the loans on the basis of amortized cost using the effective interest rate method. The gains and losses for eliminating liabilities are included in the income statement (profits and losses) in addition to the depreciation process using the effective interest rate method.

26. EARNINGS PER SHARE

Basic EPS is calculated by dividing profit or loss from continuing operations and net profit or loss (after deducting employee share and board of director's remuneration – if any) attributable to ordinary equity holders of the Company by the weighted average number of ordinary shares outstanding during the financial Year weighted by the time factor.

27. RELATED PARTY TRANSACTIONS

Related party transactions present the direct and indirect relationship between the Company and its Associates, subsidiaries, or an interest in a joint venture, also the relationship between the Company and key management personnel or employees who exercise direct or indirect strong influence on the Company's decision making. A related party transaction is a transfer of resources, services, or obligations between related parties, regardless of whether a price is charged.

28. LEASING CONTRACTS

(A) Asset Lease Contracts

The "right of use" asset and the lease liability are recognized at the start date of the contract, where the "right of use" is measured at cost at the start date of the lease, and the cost of the "right of use" asset includes the initial measurement amount of the lease commitment and any lease payments made on or before the start date the lease contract and any direct costs and any costs incurred in dismantling and removing the underlying asset. The lease obligations are measured at the present value of the lease payments unpaid on that date using the interest rate implicit in the lease. The lease payments are the payments following the right to use the asset, whether payments Fixed or variable payments (LIBOR) or amounts expected to be repaid under guarantees, the exercise price of the purchase option, and penalty payments for terminating the lease.

Subsequent measurement

- Subsequently the right of use asset is depreciated from the commencement date to the end of the underlying asset useful life in accordance with Egyptian accounting standard No. (10) if ownership of the underlying asset is expected to be transfer to the lessee at the end of the lease. Otherwise earlier of the asset useful life and lease term. any impairment loss in the value of right of use asset will be calculated.
- After the lease date, the lease obligations are measured to reflect changes in lease payments as follows: -
 - A. The carrying amount is increased to reflect the interest on the lease commitment.
 - B. The carrying amount is reducing to reflect the rental payments.
 - C. Remeasure the carrying amount to reflect any revaluation or lease modifications.
 - D. If there is a change in future lease payments as a result of a change in the interest rate used to determine the lease payments, the lease liability is re-measured to reflect the revised lease payments.

(B) Contracts of sale with leaseback

In the case of sale with leaseback, the asset transfer process is evaluated if it is a sale (the buyer obtains control of the asset, directs its use and obtains the remaining benefits from it) or is not a sale, as follows:

Transferring the asset represents a sale

The asset is recognized as a usufruct in accordance with the requirements of the Egyptian Accounting Standard No. (49) on lease contracts in exchange for proving the lease contract obligations at the present value of the lease payments as commitments as stated in the policy of lease contracts listed in item (a) above, where the contract is classified in this case as a lease contract.

Transferring an asset is not a sale

The transferred asset is recognized in the company's books within the assets in exchange for a financial obligation equal to the transfer proceeds in the contract, and this obligation is accounted for in accordance with the Egyptian Accounting Standard No. (47), where the contract in this case is classified as a financing contract with the guarantee of the asset.

(C) Exemptions from recognition

The company may choose not to apply the Egyptian Accounting Standard No. (49) on lease contracts for short-term leases and low-value lease contracts.

29. REVENUE FROM CUSTOMER CONTRACTS

- The company has applied the Egyptian Accounting Standard No. (48) for revenue from customer contracts, where the company recognizes the revenue generated from contracts with customers in light of the terms of the Egyptian Accounting Standard No. (48) by defining and applying the following procedures:
 - Determine the contract.
 - Determine performance obligations.
 - Determining the transaction price.
 - Distributing the transaction price to the performance obligations in the event that the client contract includes more than one performance obligation.

- Revenue from customer contracts is recognized over time (fulfillment of performance obligations over a Year of time representing the time in which performance obligations are fulfilled) if one of the following criteria is met:
 - A- The customer receives the benefits resulting from the performance of the facility and consumes them at the time the company implements the implementation.
 - Or b- As a result of the performance obligations, the company creates or improves an asset.
 - Or c- The company's performance does not result in the creation of an asset that has no alternative use, and the company has an enforceable right to collect payment for performance completed to date.
- Revenue from customer contracts is recognized at a point in time if the performance obligations are not fulfilled over a Year of time, as the company fulfills the performance obligation at a point in time, which is the point at which the customer obtains control of the asset - directing the use of the asset - and obtaining Approximately all residual benefits, in which case the company must recognize revenue because it has fulfilled its performance obligations.

There is an important financing component:

- The contractual value of the promised amount is adjusted to reflect the effects of the time value of money if the contract includes a significant financing component.

30. MATCHING OF REVENUES AND COSTS

The accounting treatment of signed contracts of villas and townhouses is based on the recognized revenue of the elements of the contact as follows:

a) Villas and townhouses

When The accounting treatment is done to record the concluded and approved contracts (for villas and townhouses) based on realizing the revenues from each contract as a single unit that includes all the components of the contract. (Development of land, construction works, other additional works), on the basis of time for the contracted units in the light of the progress in fulfilling the obligations, as the final output (revenues and costs) has been done in a reliable manner according to the measurement method - outputs - adopted to measure the extent of the obligation in fulfilling performance obligations and using reasonable rates of progress, as follows:

-Real estate development revenue:

Real estate development revenues are achieved for the contracted units under the conclusion of contracts with customers and the receipt of the consideration and in accordance with the credit policy established and applied by the company and the inclusion of such revenues in the income statement (profits and losses) for each unit separately (phase) versus the costs of implementing those units in light of the progress in fulfilling obligations At the level of the contract unit for each contracted unit on the date of preparing the financial statements, and the progress in the performance of obligations is determined and measured - using the output method at the contract unit level for the contracted units to the total estimated costs of work until the completion of the implementation of those units for each (unit) staged unit in order to measure and determine the extent of progress in the commitment in fulfilling performance obligations in contracts.

-Real estate development activity costs:

Activity costs are the direct and indirect value and cost of each of the lands contracted to implement units, in addition to construction costs, utilities and other indirect costs associated with construction work until the completion of the contracted unit's implementation, provided that the total contract cost represented in the lands contracted to implement is included. Units on the income statement (profits and losses) in addition to the construction costs and other costs until the completion of the implementation of those units in the light of the inventory of the completed performance contracted at the level of the contract unit, for each (unit) stage separately, in order to measure and determine the extent of progress in the commitment to fulfill the performance obligations in contracts.

b) Completed units ready for sale

The accounting treatment is done to record the concluded and approved contracts (apartments, cabins, and chalets) based on realizing the revenues from each contract as a single unit that includes all the components of the contract. (Development of land, construction works, other additional works) for a point in time that represents the point of transfer of control to the customer.

-Real estate development revenue:

Real estate development revenues are achieved for the contracted units under the conclusion of contracts with customers and the receipt of the consideration and in accordance with the credit policy established and applied by the company and the inclusion of those revenues in the income statement (profits and losses) for each unit separately (phase) against the costs of implementing those units in light of the actual delivery of those units For each contracted unit until the date of preparing the financial statements.

-Real estate development activity costs:

Activity costs are the direct and indirect value and cost of each of the lands contracted to implement units, in addition to construction costs, utilities and other indirect costs associated with construction work until the completion of the contracted unit's implementation, provided that the total contract cost represented in the lands contracted to implement is included. Units on the income statement (profits and losses) in addition to construction costs and other costs until the completion of the implementation of those units in, where all costs associated with those units of land costs, construction costs and indirect costs are charged to a work-in-progress item until the completion of all work at that phase. The square meter's share of the total costs is determined, and therefore the cost of the units is determined according to their area, provided that the unit cost is included in the income statement (profits and losses) for the contractual value at the point of time when the actual delivery of those units and the transfer of control to the customer.

31. REVENUE RECOGNITION

a) Sales revenues

1- Villas and townhouses

The revenues resulting from practicing the main and usual activity - real estate development of the company - are realized and recorded in the income statement (profits and losses) in light of the extent of progress in fulfilling obligations at the level of completion of the executed works (measuring the extent of progress) at the contract unit level for each contracted unit separately, **as the The company is contractually restricted from directing the asset to another use due to the fact that the contracted unit (sold) has pre-determined boundaries and features in the contract with regard to independent units (villas and townhouses), The company also has**

a contractual right to collect the sale value of the unit from the customer in installments. In the event of the customer's non-compliance, the installment deadlines due on the unit will be waived, with the customer committing to pay those installments in one payment. In the event of termination of the contract for reasons other than the facility's failure to perform as promised, the company will recover the costs it incurred from the customer in exchange for its completed performance to date, in addition to a percentage of the contractual value (profit margin). The revenues generated from the total contractual values from the contracts signed and approved for the contracted units are also weighted by the percentage of progress in fulfilling obligations at the level of the contract unit, taking into account additional business revenues versus their actual cost for each stage (unit) separately, in a way that reflects and measures the extent of progress. In fulfilling the performance obligations under the contract.

2- Completed units ready for sale

Completed units ready for sale represent the contractual values of contracted units. Revenue is recognized in income statement at the point in time at which the entity transfers control of the asset to the customer.

b) Investments in Associates and subsidiaries

Revenues **resulting from investments in subsidiaries companies** resulting from following **the equity method** are recorded according to the company's share in the results of the investee companies' business and according to the percentage of its contribution, in addition to the change in the equity of the investee company for items that are not included in the business results. **Revenues resulting from investments in subsidiaries and resulting from adopting the cost method** are recognized when the company has the right to receive those revenues and returns, whether by the announcement event or by the actual collection event, whichever is more specific. **The effect of those realized revenues, whether by cash distribution or by applying the equity method, is excluded from the group's income statement when preparing it.**

c) Revenues from investment property

The income resulting from investing in real estate investments is realized upon the completion and completion of the sale of those investments and the transfer of ownership – initially - to the buyer, and these revenues are recognized as sale profits at the value of the difference between the cost of those investments and the selling price, and the revenues resulting from the exploitation and leasing of these investments to others are also recognized. According with the accrual principle.

d) Interest income

Interest income is recognized in the profit or loss as it accrues using the effective interest rate method.

32. CASH AND CASH EQUIVALENTS

For the purpose of the Statement of Cash Flows, cash and cash equivalents consist of cash in hand, bank balances and short-term deposits with an original maturity of three months or less.

33. FINANCIAL INSTRUMENTS & FAIR VALUE

- Financial assets

33-1 Recognition and initial measurement

The company initially recognizes debtors and debt instruments on the date of its inception, all financial assets and other financial obligations are initially recognized on the date of the transaction when the company becomes a party to the contractual provisions of the financial instrument.

The financial asset (unless the trade receivable does not have a significant financing component) or financial liability is initially measured at fair value plus transaction costs that directly cause its acquisition of the item not at fair value through profit or loss. Customers who do not have a significant financing component are initially measured at the transaction price.

33-2 Financial Assets - Classification and Subsequent Measurement

Upon initial recognition, the financial asset is classified on (debt instruments) as measured at amortized cost or at fair value through other comprehensive income as investments in debt instruments and investments in equity instruments or at fair value through profits and losses.

Financial assets are not reclassified after initial recognition unless the company changes its business model for managing financial assets. In this case, all affected financial assets are reclassified on the first day of the first financial reporting Year after the change in business model.

The financial asset (debt instruments) is classified as valued at amortized cost if it meets the following two conditions and is not classified as valued at fair value through profit or loss:

- If the asset is to be held within a business model that aims to hold assets to collect contractual cash flows.
- In the event that the contractual terms of the financial assets give rise to cash flows on specified dates that are only principal and interest payments on the principal amount repayable.

The investment in debt instruments is classified at fair value through other comprehensive income if the following two conditions are met and is not determined as being valued at fair value through profit and loss:

- It is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.
- The contractual terms of the financial asset give rise to specified dates to cash flows that are solely payments of principal and interest on the principal and interest outstanding.

Upon initial recognition of an investment in equity instruments that are not held for the purpose of trading, the company can make an irrevocable choice to present it within other comprehensive income. Subsequent changes in the fair value of the investment appear within other comprehensive income items and are not reclassified in the income statement.

Financial assets that are not classified as valued at amortized cost or valued at fair value through other comprehensive income are classified as fair value through profit and loss, and this includes all financial assets derivatives. Upon initial recognition, the company may irrevocably designate a financial asset that meets the requirements to be measured at amortized cost, at fair value through comprehensive income, or at fair value through profit or loss if doing so eliminates or substantially reduces Inconsistency in a measurement or recognition (sometimes referred to as an "accounting inconsistency") that may arise during that time.

No expected credit losses are calculated for equity instruments.

33-3 Financial Assets - Business Model Evaluation

The company makes an objective assessment of the business model in which a financial asset is held at the portfolio level because this better reflects the way the business is conducted, and information is presented to management. The information considered includes:

- The stated policies and objectives of the portfolio and the operation of those policies in practice. This includes whether management's strategy focuses on earning contractual interest income and maintaining a certain interest rate.
- How to evaluate the performance of the portfolio and report it to the company's management.
- the risks that affect the performance of the business model (and the financial assets held in the business model) and how those risks are managed
- The frequency, volume, and timing of sales of financial assets in previous Years, the reasons for such sales, and expectations regarding future sales activity.
- Financial assets held for trading whose performance is evaluated on a fair value basis are measured at fair value through profit or loss.

33-4 Financial Assets - Assessment of whether the contractual flows are solely payments of principal and interest

For the purposes of this assessment, the principal amount is the fair value of the financial asset at financial recognition and the interest is against the time value of money, against the credit risk associated with the principal amount outstanding over a certain Year of time and against other basic lending risks and costs (liquidity risk and administrative costs), in addition to the profit margin.

In assessing whether the contractual cash flows are solely payments of interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows so that it would not meet this condition. When making this assessment, the Company considers:

- potential events that would change the amount or timing of cash flows.
- terms that may modify the rate of contractual payments, including variable rate features.
- Prepaid features and additions; (if any)
- Conditions that limit a company's claim to cash flows from identified assets

- The early payment benefit is consistent with payments of principal and interest only if the amount of the prepayment substantially represents the unpaid amounts of principal and interest on the principal amount owed, which may include reasonable compensation for early termination. In addition, for financial assets obtained at a discount or premium over the contractual face value, a feature that permits or requires early payment in an amount substantially the contractual amount plus the contractual interest accrued (but not paid) (which may also include reasonable compensation for early termination) is treated as compliant with this Standard if the fair value of the early settlement feature is ineffective on initial recognition.

33-5 Financial Assets - Subsequent Measurement, Profits and Loss

Financial assets at fair value through profit or loss	Financial assets are subsequently measured at fair value, and changes in fair value, including any returns or dividends, are recognized in profit or loss.
Financial assets at amortized cost	Financial assets valued at amortized cost are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, exchange gains and losses and impairment are recognized in profit and loss, and gains and losses on disposal are recognized in profit and loss.
Debt instruments at fair value through other comprehensive income	Financial assets at fair value through comprehensive income are subsequently measured at fair value. Interest income is calculated using the effective interest method, gains and losses on currency differences and impairment are recognized in profit and loss. Other net gains and losses are recognized in comprehensive income. On disposal, the combined profit and loss in comprehensive income is reclassified to profit and loss.
Equity investments at fair value through other comprehensive income	Financial assets valued at fair value through comprehensive income are subsequently measured at fair value. Dividends are recognized as income in profit and loss unless the dividends clearly represent a recovery of part of the investment cost. Other net gains and losses that have been recognized in other comprehensive income are not reclassified at all to profit or loss.

33-6 Financial liabilities - classification and subsequent measurement, profits and losses

Financial liabilities are classified as valued at amortized cost or at fair value through profit and loss.

Financial liabilities are classified as valued at fair value through profit and loss if they are classified as held for trading purposes, or they are within financial derivatives, or they are classified at fair value through profit or loss upon initial recognition.

Financial liabilities measured at fair value through profit and loss are measured at fair value and net gains and losses, including interest expense, are recognized in profit and loss.

Other financial obligations are subsequently measured at amortized cost using the effective interest method. Interest expense and gains and losses from changes in foreign exchange rates are recognized in profit and loss. Gains and losses resulting from disposal are recognized in profit and loss.

33-7 DISPOSAL

financial assets

The company disposes the financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the contractual rights to receive the contractual cash flows in a transaction in which substantially all the risks and rewards of ownership of the financial asset have been transferred, or in which the company does not transfer or retain bears all the risks and rewards of ownership and does not retain control over the financial assets.

The Company enters into transactions whereby it transfers the assets recognized in its statement of financial position but retains all the risks and rewards of the transferred assets. In this case, the transferred assets are not excluded.

financial obligations

Financial obligations are excluded when the contractual obligations are paid, canceled or expired.

The company also dismisses a financial liability when its terms are adjusted and the cash flows of the modified obligations are substantially different, in which case the new financial obligations are recognized on the basis of the adjusted condition at fair value.

On derecognition of financial obligations are derecognition, the difference between the book value and consideration paid (including any non-monetary assets transferred or liabilities assumed) is recognized in profit or loss.

33-8 Offsetting of Financial Instruments

Financial assets and financial liabilities are offset, and the net reported in the statement of financial position when, and only when:

The company has a legally mandatory right to settle the recognized amounts, and when the company intends to settle the assets with the liabilities on a net basis or sell the assets and settle the liabilities simultaneously.

33-9 Derivative financial instruments and hedge accounting

The Company holds derivative financial instruments to hedge its exposure to foreign exchange rate and interest rate risks. Implicit derivatives are separated from the host contract and accounted for separately if the host contract is not a financial asset and if specific conditions are met.

Derivatives are initially measured at fair value and the related transaction costs are recognized in profit or loss. After initial recognition the derivative is measured at fair value and any change in fair value is recognized in profit or loss.

34. RISK MANAGEMENT

(A/1) Interest rate risk

The interest risk is represented in the interest rates changes and its effect on the current and future financial liabilities, represented in interests and commissions on bank overdraft, which may have a negative impact on the results of operations. The Company uses long-term financing sources with no interest represented in advances from customers.

	<u>NOTE</u>	
	<u>NO.</u>	
Local operation current accounts	(48)	3 101 076 296
Banks accounts for local currency deposits	(48)	2 500 000
		<u>3 103 576 296</u>
<u>Financial obligations</u>		
LOANS		
Banks credit	(51)	4 240 282 321
banks Overdraft	(49)	353 943 276
Lease obligations	(50)	3 949 495 366
	(55)	10 357 370
		<u>8 554 078 333</u>

In the event that interest rates change from current rates with all other variables constant, this will affect the sensitivity of the statement of profits and losses as a result of assuming a change in the interest rate, based on the financial assets and liabilities linked to the interest rate, as follows:

- In the event of an increase/(decrease) in the interest rate by 2% with all other variables remaining constant, the statement of profits and losses, as well as the statement of cash flows for the year in which the change occurred, will be affected by an increase/(decrease) of approximately 109 million Egyptian pounds.

(A/2) Foreign exchange rate risk

Foreign currency risk is represented by changes in foreign currency rates, which affect payments and receipts in foreign currencies, as well as the evaluation of assets and liabilities in currencies. The balances of assets in foreign currencies described above were evaluated using the rate prevailing on the date of the financial position.

The net foreign currency balances at the financial position date are as follows:

	<u>31 Mar 2024</u>
	<u>EGP</u>
<u>Financial assets</u>	
Net foreign currency balance - Asset	188 993 858

Sensitivity analysis:

Foreign currency rate risk is the risk of fluctuations in the fair value of the future cash flows of a financial instrument due to changes in foreign currency rates. The following table shows the company's sensitivity to a 10% increase or decrease in the Egyptian pound against foreign currency exchange rates while keeping all other variables constant, and the impact of that on The company's statement of profits or losses is as follows:

	<u>31 Mar 2024</u>
	<u>EGP</u>
<u>Financial assets</u>	
The equivalent in Egyptian pounds for collecting foreign currencies	188 993 858
<u>The effect of an increase/decrease in the exchange rate on the company's net profit</u>	
When foreign exchange rates increase by 10%	18 899 386
When foreign exchange rates decrease by 10%	(18 899 386)

(B) Credit risk

Credit risk is represented by the inability of customers to whom credit is granted to pay what is owed to them. This risk is considered limited given that the company deals with customers with good financial solvency, in addition to the company's failure to deliver the contracted units before the customer deposits negotiable bank debt instruments in exchange for the unpaid installments in Date of receipt (note 44).

In addition to the above, customer contracts stipulate that ownership of the units will not be transferred to customers before paying the full value of the units. Therefore, no losses or impairment of customer balances occurred before that.

The company also achieves direct and indirect profits in the event that customers do not pay the remaining dues on the unit, as the contract is canceled and the amounts previously paid are refunded after deducting the cancellation fees in accordance with the concluded contract, in addition to the positive change in selling prices and thus the contractual values of the units.

The company periodically studies expected credit losses to offset the impact of expected credit risk on the poor quality of financial assets.

Market risk is represented in permanent or temporary negative fluctuations or both in the prices of securities in the stock market for securities available for sale, which may negatively reflect on the capital values of the company's portfolio of securities for the cost of acquisition, and the company follows a conservative policy for all its investments and this is reflected in the fair values of the portfolio.

(C) investment risk

The investment risk is represented in the possible decrease in the potential and expected returns and distributions in the companies invested in their capital and the possibility of reinvesting in other securities with relatively high returns, in addition to the potential risks of not appropriate diversification in the stock portfolio in all existing and potential investment sectors. The company follows a policy in managing the company's stock portfolio that will maximize returns, revenues and profits achieved through purchases and resales, as well as selling and repurchases, in addition to diversifying investment in investment sectors with relatively stable returns.

(D) Liquidity risk

Liquidity risk is represented by factors that may affect the company's ability to pay part or all of its obligations, and according to the company's policy, appropriate liquidity is maintained to meet the company's current obligations, which affects the reduction of that risk to a minimum.

The following is an analytical statement of financial obligations and other contribution payments at the date of the financial position, which are as follows:

- On March 6, 2023, Prime Minister's Decision No. (883) of 2023 amending the advanced version of some necessary Egyptian standards, and on March 3, 2024, another Prime Minister's Decision No. (636) of 2024 amending some other provisions of the Egyptian appropriate standards. A summary of the most important of these improvements follows.:

<u>New or reissued standards</u>	<u>Summary of the most important amendments</u>	<u>Potential impact on the financial statements</u>	<u>Application history</u>
<p>New Egyptian Accounting Standard No. (10) Amended 2023 "Fixed Assets and Their Depreciation" and Egyptian Accounting Standard No. (23) Amended 2023 "Intangible Assets"</p>	<p>1 -These standards were reissued in 2023, allowing the use of the revaluation model when subsequently measuring fixed assets and intangible assets.</p> <p>2 -This resulted in amending the paragraphs related to using the revaluation model option in some of the applicable Egyptian accounting standards, and the following is a statement of those standards :</p> <p>-Egyptian Accounting Standard No. (5) "Accounting Policies and Errors."</p> <p>-Egyptian Accounting Standard No. (24) "Income Taxes."</p> <p>-Egyptian Accounting Standard No. (30) "Periodic Financial Statements."</p> <p>-Egyptian Accounting Standard No. (31) "Impairment of Assets."</p> <p>-Egyptian Accounting Standard No. (49) "Lease Contracts".</p> <p>3- In line with the amendments made to Egyptian Accounting Standard No. (35) amended 2023 "Agriculture", paragraphs (3), (6), (37) of Egyptian Accounting Standard No. (10) "Fixed Assets and their Depreciation" have been amended, as well. Paragraphs 22(a), 80(c), and 80(d) were added to the same standard, with regard to fruit-bearing plants.</p> <p>The company is not required to disclose the quantitative information required under Paragraph 28 (f) of Egyptian Accounting Standard No. (5) for the current period, which is the financial statement period in which Egyptian Accounting Standard No. (35) amended 2023 and Egyptian Accounting Standard No. (10) are applied for the first time. The rate is 2023 with regard to fruiting plants. However, the quantitative information required under Paragraph 28(f) of AASB 5 must be disclosed for each prior period presented.</p>	<p>Management is currently studying the possibility of changing the adopted accounting policy and using the fair value model option included in the standard, and evaluating the potential impact on the financial statements if that option is used.</p>	<p>The amendments to add the option to use the revaluation model apply to financial periods beginning on or after</p> <p>January 1, 2023, retroactively, with proof of the cumulative effect of initially applying the revaluation model by adding it to the revaluation surplus account next to equity at the beginning of the financial period in which the company applies this model for the first time.</p>

<u>New or reissued standards</u>	<u>Summary of the most important amendments</u>	<u>Potential impact on the financial statements</u>	<u>Application history</u>
	<p>The company may choose to measure an item of fruitful plants at its fair value at the beginning of the earliest period presented in the financial statements for the period in which the company first applied the above amendments and to use that fair value as its hypothetical cost at that date. Any must be proven The difference between the previous book value and the fair value in the opening balance by adding it to the revaluation surplus account next to equity at the beginning of the earliest period presented.</p>		
<p>New Egyptian Accounting Standard No. (36) amended 2023 "Exploration for and Evaluation of Mining Resources"</p>	<p>1 -These standards were reissued in 2023, allowing the use of the revaluation model when subsequently measuring exploration and evaluation assets.</p> <p>2- The company applies either the cost model or the revaluation model for exploration and evaluation assets, provided that the evaluation is carried out by experts specialized in evaluation and valuation among those registered in a register designated for that at the Ministry of Petroleum, and in the case of applying the revaluation model (either the model contained in the Egyptian Accounting Standard (10).) "Fixed assets and their depreciation" or the form contained in Egyptian Accounting Standard No. (23) Intangible Assets, "which must be consistent with the classification of assets in accordance with Paragraph No. (15) of Egyptian Accounting Standards No. (36) amended 2023.</p>	<p>The standard has no impact on the financial statements</p>	<p>The amendments to add the option to use the revaluation model apply to financial periods beginning on or after</p> <p>January 1, 2023, retroactively, with proof of the cumulative effect of initially applying the revaluation model by adding it to the revaluation surplus account next to equity at the beginning of the financial period in which the company applies this model for the first time.</p>
<p>New Egyptian Accounting Standard No. (35) amended 2023 "Agriculture"</p>	<p>1 -These standards were reissued in 2023, and the paragraphs were amended</p> <p>(1-5), (8), (24) and (44) and the addition of paragraphs (5a) - (5c) and (63), with regard to the accounting treatment of fruitful plants (and the Egyptian Accounting Standard (10) "Principles" was amended accordingly. Fixed items and their depreciation</p>	<p>The standard has no impact on the financial statements</p>	<p>These amendments shall be applied for annual periods beginning on or after January 1, 2023, retroactively, with the cumulative effect of the accounting treatment for fruitful plants initially proven by adding it to the balance of retained profits or losses at the beginning of the financial period in which the company applies this treatment for the first time.</p>
<p>New Egyptian Accounting Standard No. (34) Amended 2023 "Real Estate Investment"</p>	<p>1- These standards were reissued in 2023, allowing the use of the fair value model in the subsequent measurement of real estate investments.</p>	<p>Management is currently studying the possibility of changing the adopted accounting policy and using the fair value model option</p>	<p>Apply the amendments to add the option to use the fair value model to financial periods beginning on or after</p>

<u>New or reissued standards</u>	<u>Summary of the most important amendments</u>	<u>Potential impact on the financial statements</u>	<u>Application history</u>
	<p>2 -This resulted in amending the paragraphs related to using the revaluation model option in some of the applicable Egyptian accounting standards, and the following is a statement of those standards :</p> <ul style="list-style-type: none"> -Egyptian Accounting Standard No. (1) "Presentation of Financial Statements." -Egyptian Accounting Standard No. (5) "Accounting Policies, Changes in Accounting Estimates, and Errors". -Egyptian Accounting Standard No. (13) "Effects of Changes in Foreign Currency Exchange Rates". -Egyptian Accounting Standard No. (24) "Income Taxes." -Egyptian Accounting Standard No. (30) "Periodic Financial Statements." -Egyptian Accounting Standard No. (31) "Impairment of Assets." - Egyptian Accounting Standard No. (32) "non-current assets held for the purpose of sale and discontinued operations." - Egyptian Accounting Standard No. (49) "Lease Contracts". 	<p>included in the standard, and evaluating the potential impact on the financial statements if that option is used.</p>	<p>January 1, 2023, retroactively, with the cumulative effect of initially applying the fair value model by adding it to the balance of retained profits or losses at the beginning of the financial period in which the company applies this treatment for the first time.</p>
<p>New Egyptian Accounting Standard No. (50) "Insurance Contracts"</p>	<p>1 -This standard specifies the principles for proving insurance contracts that fall within the scope of this standard, and specifies their measurement, presentation, and disclosure. The goal of the standard is to ensure that the facility provides appropriate information that faithfully reflects those contracts. This information provides users of financial statements with the necessary basis to evaluate the impact of these insurance contracts on the company's financial position, financial performance, and cash flows.</p> <p>2 -Accounting Standard No. (50) replaces and repeals Egyptian Accounting Standard No. 37 "Insurance Contracts."</p> <p>3 -Any reference in other Egyptian accounting standards to Egyptian Accounting Standard No. (37) will be replaced with Egyptian Accounting Standard No.(50) .</p> <p>4 -Amendments have been made to the following Egyptian Accounting Standards to comply with the requirements for applying Egyptian</p>	<p>Management is currently evaluating the potential impact on the financial statements of applying the standard.</p>	<p>Egyptian Accounting Standards No. (50) must be applied for annual financial periods beginning on or after July 1, 2024, and if Egyptian Accounting Standards No. (50) is applied for an earlier period, the company must disclose that fact.</p>
